RFQ Outreach — Forged Wheel Manufacturers

Date: 2026-04-19

Sender: SignalWaves SLU (B19996313, Barcelona)

Founder contact: Andrei Potcenkovskii / pozenkov13@gmail.com / +34 628 106 939

BUSINESS MODEL (for context — do NOT include in emails)

Forged Wheels is a **bespoke single-set custom forged wheel platform**. Customer uploads a car photo, our AI generates a unique wheel design on their car, customer orders **one set (4 wheels)** made to that specific STEP file. No moulds, no bulk runs — each order is a unique CNC-machined piece from aluminum billet. Target: 20–50 bespoke sets/month by Q3 2026.

Therefore the RFQ focuses on:

- **MOQ 1 set (4 wheels)** per unique design
- **CAD workflow** — accepts client STEP/IGES for every order
- **EU documentation pack** for Einzelabnahme (DE) / Reforma de importancia (ES) per single set
- **Fast lead time** — ≤ 25 days
- Per-order pricing for custom, not per-mould

EMAIL #1 — Wuxi Susha Auto Parts (SSRacing) 🇨🇳 — PRIMARY

Channel: Alibaba chat (ssracing.en.alibaba.com) + email if public

Subject (A/B/C):

- A (formal): `RFQ — Bespoke forged wheels partnership, EU platform (Spain)`
- B (curiosity): `AI-designed forged wheels — can you produce 1 set per customer?`
- C (opportunity): `Barcelona EU platform seeking forged partner, 20–50 sets/month by Q3`

Body

> Hello SSRacing team,
>
> I'm Andrei, founder of **SignalWaves SL** (Spanish company, CIF B19996313, Barcelona), operating the Forged Wheels platform: **forged-wheels-showroom.vercel.app**.
>
> We are an AI-powered e-commerce for **bespoke custom forged wheels**: each customer uploads a photo of their car, our AI generates a unique wheel design on their exact vehicle, and we deliver **one custom-forged set (4 wheels)** manufactured to that specific STEP file. This is not mass production — each order is one unique design for one customer.
>
> I am reaching out because your Alibaba profile confirms **verified JWL, VIA, SAE J2530 certifications** and declared exports to **Germany, UK, Italy, Switzerland, Austria** — which matches exactly what we need for our Spain + EU launch (June 2026).
>
> **We'd like to discuss an ongoing manufacturing partnership with per-order flexibility**, not a fixed wholesale contract. Forecast: 20–50 custom sets/month Q3 2026, scaling to 200+/month Q2 2027.
>
> To evaluate fit, please share:
>
> 1. **Minimum Order Quantity for a fully custom (client STEP file) single set** — can you produce **1 set (4 pcs) per unique design**?
> 2. **Per-set pricing** (EUR or USD) for custom monoblock forged, these reference configs:

- 19" × 8.5J, 5×112, ET35
- 20" × 9.0J, 5×120, ET35
- 21" × 9.5J, 5×112, ET30
- 22" × 10.0J, 5×120, ET25

3. **Available finishes** (full list with price delta): brushed, polished, matte, gloss, chrome, powder coat, diamond cut, custom color

4. **Production lead time** from confirmed STEP + deposit to ready-to-ship (days)

5. **Payment terms** — deposit %, balance terms, methods (T/T, L/C, PayPal, Alibaba Trade Assurance)

6. **Logistics options to Barcelona, Spain** — FOB Shanghai, DAP to our address, any EU warehouse (DE/NL/PL)?

7. **CAD workflow** — STEP/IGES/STP accepted on every order? In-house engineering review for structural validity?

8. **EU documentation package per single set** — this is critical:

a. Material certificate (aluminum alloy grade — 6061-T6 or 6082)

b. Load test report (JWL / VIA methodology) per batch

c. Dimensional drawing (PCD, ET, bore, weight)

d. Certificate of origin

Our EU customers will individually homologate each set via local TÜV (Germany) or ITV Reforma de importancia (Spain). Can you provide this full pack per single set?

9. **TÜV Teilegutachten or equivalent** — do you hold any SKU-level TÜV certificates? Please share PDF of a recent one.

10. **Sample policy** — cost and lead time for a 1-set sample to Barcelona.

>

Our specific ask:

- Full price list / catalog of existing forged designs
- Sample quote for **one custom set** (we'll send STEP files in your reply)
- Onboarding process: what do you need from our side to activate partnership?

>

We are comparing 5 manufacturers across China and Taiwan and will shortlist top 2–3 for in-person visits within 60 days. **We're ready to sign NDA upon request.**

>

Please respond within 7 business days. **Preferred communication: email (pozenkov13@gmail.com), WhatsApp (+34 628 106 939), or WeChat (ID:**

> **wxid_pxi4j278zg2s12).** Happy to do a video call on Zoom, Google Meet, or WeChat at your convenience.
>
> Best regards,
>
> **Andrei Potcenkovskii**
>
> Founder, Forged Wheels (SignalWaves SLU)
>
> pozenkov13@gmail.com | WhatsApp: +34 628 106 939
>
> forged-wheels-showroom.vercel.app
>
> **P.S.** We run Gemini 3 Pro Image for AI-based wheel visualization — customers see your wheels on their own car before ordering. If you're interested, I can send a 2-minute video of the platform and mock-ups showing your existing SKUs rendered on real customer cars. This eliminates the #1 friction in custom wheel sales: uncertainty.

EMAIL #2 — Kipardo Racing 🇨🇳 — BESPOKE SPECIALIST (MOQ=1)

Channel: kipardoracing.com contact form + Alibaba chat

Subject: `RFQ — Single-pair custom forged, AI-designed — EU platform partner sought`

Body

> Hello Kipardo team,
>
> I'm Andrei, founder of **SignalWaves SL** (CIF B19996313, Barcelona), operating **forged-wheels-showroom.vercel.app** — an AI-powered platform for **bespoke custom forged wheels** in Spain and EU.
>
> Your site explicitly advertises **MOQ 1 piece for custom forged wheels**, which is exactly the production model we need. Each of our orders is one unique CNC-forged set to client STEP file — no mould investment, no inventory, one-off bespoke production.

>

Partnership interest: ongoing custom-forged manufacturing with per-order flexibility. Volume: 20–50 bespoke sets/month Q3 2026, scaling to 200+ by Q2 2027.

>

Please confirm and quote:

>

1. **MOQ 1 full set (4 wheels) per unique customer STEP** — confirmed?
2. **Per-set custom forged pricing** (EUR/USD):
- 19" × 8.5J, 5×112, ET35
- 20" × 9.0J, 5×120, ET35
- 21" × 9.5J, 5×112, ET30
- 22" × 10.0J, 5×120, ET25
3. **Lead time** from confirmed STEP + deposit to ready-to-ship (you advertise 10–15 days for monoblock — confirm for full custom?)
4. **Finishes** — complete list with price delta
5. **Payment** — deposit %, PayPal accepted for first sample order (under €2,000)? Alibaba Trade Assurance?
6. **Logistics** — DAP quote to Barcelona, Spain; any consolidation option for multiple customer sets on one shipment?
7. **CAD workflow** — accept client STEP/IGES? In-house engineering check before CNC?
8. **EU documentation per single set** — critical for us:
- Aluminum alloy material cert (6061-T6 preferred)
- JWL / VIA load test report per produced set
- Dimensional drawing
- Certificate of origin

Our customers will individually homologate via local TÜV (DE) or ITV Reforma (ES).

9. **TÜV Teilegutachten** — which of your SKUs have valid TÜV? Please share 1 sample PDF.
10. **Sample 1 custom set** — cost and lead time delivered Barcelona.

>

Specific ask:

- Catalog of existing forged designs (for quick-ship options)
- Sample quote for 1 custom set — we'll send our STEP file in your reply
- Onboarding checklist

>

Comparing 5 partners, shortlisting 2–3 for factory visits in 60 days. NDA available on request.

>

Please respond within 7 business days. **Preferred communication: email (pozenkov13@gmail.com), WhatsApp (+34 628 106 939), or WeChat (ID: wxid_pxi4j278zg2s12).** Available for video call (Zoom / WeChat) any time.

>

Best regards,

Andrei Potcenkovskii

Founder, Forged Wheels (SignalWaves SLU)

pozenkov13@gmail.com | WhatsApp: +34 628 106 939

forged-wheels-showroom.vercel.app

>

P.S. We use Gemini 3 Pro Image for photo-realistic AI try-on — customers see the wheel on their own car before ordering, which is how we can sell bespoke single pairs profitably. Happy to send a 2-minute demo showing your existing SKUs visualized on real European customer cars.

EMAIL #3 — GVICHN / Evan 🇨🇳 — DIRECT WHATSAPP

Channel: WhatsApp first (+86 159 2874 8525), then email follow-up

WhatsApp message (short, casual)

Hi Evan — Andrei here, founder of Forged Wheels in Barcelona (SignalWaves SL, CIF B19996313). Found your contact through gwforgedwheels.com and your Facebook page.

>

We run an AI-powered platform for **bespoke custom forged wheels** — each customer orders 1 unique set designed through our AI. Launching in Spain & EU June 2026, targeting 20–50 sets/month Q3.

>

> Your profile looks like a strong fit: JWL/VIA, 60 CNC machines, works with 20+ brands — you're used to boutique orders.
>
> Could you confirm:
>
> - MOQ for 1 fully-custom set (client STEP)?
> - Lead time and approximate pricing for 20" × 9.0 / 5×120 / ET35?
> - Do you provide material cert + JWL test report per single set for EU homologation (TÜV / ITV)?
>
> I'll send a formal RFQ by email once you confirm. Happy to share our platform link and a 2-min demo of the AI try-on.
>
> 🌐 forged-wheels-showroom.vercel.app
> ✉️ pozenkov13@gmail.com

Follow-up email (after WhatsApp response)

> Hi Evan,
>
> Thanks for the quick reply on WhatsApp. Here is the full RFQ as discussed.
>
> [Paste full body from Email #1 — same 10 questions]

EMAIL #4 — Wheelshome 🇨🇳 — BACKUP QUOTE

Channel: Alibaba storefront + wheelshome.com contact

Subject: `RFQ – Custom forged wheels for EU platform – TÜV documentation required`

Body

Hello Wheelshome team,

>

I'm Andrei, founder of **SignalWaves SL** (CIF B19996313, Barcelona) — **forged-wheels-showroom.vercel.app**. We're launching a bespoke AI-designed forged wheel platform for Spain + EU in June 2026.

>

Your profile (JWL, VIA certifications, 40k stock, DAP EU capability) looks like a fit for an ongoing partnership of 20–50 custom sets/month.

>

Please quote:

>

[Same 10 questions as Email #1]

>

Important for us: since we sell into EU, we need the full documentation pack per single set for local homologation (Einzelabnahme DE / Reforma de importancia ES). This is a hard requirement — please share:

- A sample TÜV Teilegutachten PDF from any existing SKU
- A sample JWL/VIA test report you issue per order

>

If these are readily available, we'd like to proceed to a 1-set sample quote.

>

Response within 7 business days appreciated. **Preferred communication: email (pozenkov13@gmail.com), WhatsApp (+34 628 106 939), or WeChat (ID: wxid_pxi4j278zg2s12).** Video call available anytime.

>

Best regards,

Andrei Potcenkovskii

Founder, Forged Wheels (SignalWaves SLU)

EMAIL #5 — League Alloy 🇹🇼 — PREMIUM RELATIONSHIP-BUILDING

Channel: league.com.tw contact form

Subject: `Design partnership enquiry — EU bespoke forged wheel platform`

Body

> Dear League Alloy team,
>
> I'm Andrei Potcenkovskii, founder of **SignalWaves SL** (CIF B19996313, Barcelona), operating the **Forged Wheels** platform — forged-wheels-showroom.vercel.app.
>
> We are building an AI-powered platform for bespoke premium forged wheels in Europe, launching in Spain and Germany mid-2026. Our differentiator is Gemini-3-powered visualization: customers see the exact wheel design on their own car photo before committing to a bespoke order.
>
> I am writing to you specifically because your certification stack — **TÜV, VIA, IATF 16949, ISO 9001** — is the highest in the industry, and your 35+ year OEM heritage positions you as the ideal long-term partner for our **premium tier** product line.
>
> I understand your MOQs are OEM-scale and this is not a fit for our initial launch volume. My request is different: **I'd like to open a relationship now with the view of co-developing 3–5 exclusive mould designs for a 2027 "League × Forged Wheels" premium collaboration** — exclusively sold through our EU platform.
>
> Would your engineering team be open to a 30-minute video call to explore:
>
> - Minimum feasible order for an exclusive-design development partnership
> - IATF 16949-grade homologation pack for EU markets
> - Co-branded marketing opportunity (we would feature "Made in Taiwan, forged by League Alloy" prominently)
>
> I can share a full deck, platform demo, and EU market traction data prior to the call.

>

Preferred communication: email (pozenkov13@gmail.com), WhatsApp (+34 628 106 939), or WeChat (ID: wxid_pxi4j278zg2s12).

>

Best regards,

Andrei Potcenkovskii

FOLLOW-UP (5 business days after first contact, if no reply)

Subject: `Re: [original subject] — quick follow-up`

Hi [name / team],

>

Following up on my RFQ from [date]. Understand you likely receive many enquiries, so briefly: **SignalWaves SL (Barcelona) is ready to place a paid sample order for 1 custom forged set within 14 days of receiving your quote** — we just need the answers to the 10 questions from my previous email.

>

Alternatively, a 15-minute video call (Zoom / WeChat / Google Meet) this week works — I'll send the full platform demo and technical requirements live.

>

Simply reply with your preferred channel and one available time slot.

>

Best regards,

Andrei

pozenkov13@gmail.com | WhatsApp +34 628 106 939

SENDING CHECKLIST (before pressing send on each)

- [ ] Personalize `{{contact_name}}` if you found their sales rep name (Alibaba chat usually reveals it)
- [ ] Double-check company name (e.g. SSRacing vs. Wuxi Susha Auto Parts)
- [ ] If Alibaba chat — attach platform screenshot (1 image max)
- [ ] If email — CC yourself (pozenkov13@gmail.com)
- [ ] Save the outgoing message + timestamp in a tracking spreadsheet
- [ ] Set 5-business-day reminder to send follow-up

PERSONALIZATION TIPS (per manufacturer type)

- **Tier-2 Chinese (Wuxi Susha, Kipardo, GVICHN, Wheelshome):** lead with volume forecast + Trade Assurance friendliness. They respond to commercial intent, not brand stories.
- **Tier-1.5 Taiwanese (League Alloy):** lead with long-term relationship + co-brand opportunity. They respond to pedigree and patience, not urgency.
- **Direct-contact channels (Evan @ GVICHN):** WhatsApp first with 3-line pitch, then formal email. They respond to speed.
